

EZEDIN ABDELA

CANDIDATE PROGRAMMER

ABOUT ME

Programming and Development program certified at Udacity and Certified in Python from MIT, I have a strong foundation in programming principles, problem-solving, and data analysis. I am also expanding my skill set in web development through an intensive online boot camp, where I am gaining hands-on experience with front-end and back-end technologies, responsive design, and JavaScript. This continuous learning journey is equipping me with practical skills for building interactive and efficient web applications. And i will head in machine learning then to AI . at the end i will best problem solver through technology-based problems.

OBJECTIVE

My objective in this CV seeking to represent MIT in the International Collegiate Programming Contest (ICPC). Passionate about enhancing problem-solving skills, collaborating with a team, and competing at an international level.

SOME PERSONAL PROJECTS

Data Visualization Dashboard

- Designed a dashboard for data analysis using Matplotlib and Seaborn. This project included multiple visualizations to interpret data insights, helping showcase analytical and visualization skills.

Movie Database recommendations system

- Create and manage the marketing budget, ensuring efficient allocation of resources and optimizing ROI.
- Oversee market research to identify emerging trends, customer needs, and competitor strategies.
- Monitor brand consistency across marketing channels and materials.

i-phone calculator

- Created a web-based calculator inspired by the iPhone using JavaScript, HTML, and CSS. This project features basic arithmetic operations and an elegant user interface that mimics the iPhone aesthetic. Users can enjoy real-time updates and seamless calculation management. It showcases my skills in front-end development and understanding of responsive design principles.

EDUCATION

2022 - PRESENT

UNIVERSITY OF WOLLO

- ENGINERRING AND TECHNOLOGY

SKILLS

- Front-end development
- Python
- basics JavaScript
- Mysql
- Node Js
- Data Analysis and Visualization

SOFT SKILLS

- Teamwork
- Adaptability
- Communication
- Hard work
- Fast learner

LANGUAGES

- English (Basics)
- Amharic (Native)
- Arebic (Basics)
